

## VHF Handheld Radio ▼

The IC-M24 is Icom's 3rd-generation floating radio. It is nearly 1/3 smaller than the original M34, and it sports a bright red LED that flashes if the radio is dropped in water, even if it is turned off. Carried in a PFD pocket, the light will go on if you capsize, but will turn off when you're upright. The compact 3.7V, 1500 mAh Lithium-Ion battery pack reduces the radio's overall size and weight yet delivers a full 5 watts of transmit power and up to 10 hours of operating time. The 600mW of audio output makes the M24 easy to hear, even in stormy conditions. It also has favorite channel selection, dual/tri watch, one-touch "Tag" scanning, a 4-step battery life indicator, and an AquaQuake feature, which uses low-frequency sound waves to clear water from the speaker grille. A 3-year waterproof warranty is included.

## Outdoor Kettle Stove ▼

This outdoor kettle is used to quickly boil water in a compact form using eco-friendly fuel (i.e., beach wood). Built of aluminum, it's 7 inches tall, and 3.75 inches in diameter: it has a 1-pint capacity. Full boil in 6 to 10 minutes. Used by sea kayakers where weight, size, and function are critical. Waterproof for transport. (Made in the UK.)

## Gear Mount ▼

The Radpole is a rigid gear mount capable of hosting camera and video equipment, a night navigation light, device cradles, a GPS unit, a fishfinder and state-of-the-art fishing rod holders. Constructed of powder-coated aluminum components with brass and stainless steel fittings and EPDM rubber bushings the Radpole has two ball-and-socket couplers that allow the arm and mount to swivel.

The "Expedition Kit" includes the 31" Radpole mount; a bright white LED navigation light; a powder-coated aluminum camera mount; and a high-strength composite video camera mount. Installed on the aft of a kayak, the Radpole light exceeds U.S. Coast Guard, Safety of Life at Sea (SOLAS) and inland waterways visibility regulations for navigation lighting.

## Radpole Multi-purpose Gear Mount (Expedition Kit) \$159.95
